CHINONSO EZEIGBO

LEAD UI/UX DESIGNER & PRODUCT ARCHITECT

Newcastle upon Tyne, UK • +44 7350 156605 • godswill.ec@gmail.com • Live Portfolio & Case Studies

PROFESSIONAL SUMMARY

Commercially-driven UI/UX Designer with 4+ years of experience delivering high-impact SaaS, web, and mobile products. Track record of accelerating development cycles by 50%, lifting mobile checkout conversions by +34%, and reducing cart abandonment by 44%. Combines end-to-end design craft (user research, wireframing, production design tokens) with an MSc in Cyber Security at Aston University, bringing a specialist focus on WCAG 2.1 AA accessibility, GDPR, and Privacy-by-Design. Experienced across Agile teams in the UK and internationally.

CORE COMPETENCIES

Design & Prototyping: UI/UX Architecture, Wireframing, Rapid Prototyping, User Flows, Journey Mapping, Mobile-First Design, Micro-Interactions.

Systems & Dev Handoff: Figma (Tokens, Auto-layout, Variables, Component Libraries), CSS/React Token Mapping, Interaction Specs, Design QA.

Research & Usability: Heuristic Audits, Usability Testing, User Interviews, Empathy Mapping, A/B Testing, Task Drop-Off & Friction Logging.

Standards & Tooling: WCAG 2.1 AA Compliance, GDPR & Privacy-by-Design, Jira, Teamwork, Agile/Scrum, Adobe Creative Cloud.

PROFESSIONAL EXPERIENCE

Lead UI/UX Designer — **Appsatile Ltd** Gateshead, UK (Remote) | Mar 2023 – Feb 2026

- Spearheaded the design system from scratch across Appsatile's multi-product SaaS suite, establishing unified component libraries for 3 squads.
- Architected a 3-tier token structure (colors, typography, spacing) mapped 1:1 to CSS variables and React props, **cutting handoff time by 50%**.
- Guaranteed **100% WCAG 2.1 AA accessibility** across all components with high-contrast palettes, accessible focus rings, and compliant touch targets.
- Managed sprint workflows in Jira and Teamwork, conducting backlog groomings, design reviews, and engineering QA pairing sessions.
- Built high-fidelity interactive prototypes validating user flows with stakeholders prior to engineering sprints, eliminating post-release rework.

Lead Product Designer — **Key Portfolio Client Case Studies** UK & Global | 2022 – Present

- **LazyZoneLabs (AI Creator Suite):** Architected single-screen web workspace unifying script writing, audio waveforms, and video timelines; **lifted project completion to 88%** and **cut video production time by 42%**.
- **Nikos Farm (E-Commerce Platform):** Redesigned mobile shopping with slide-out cart drawer and harvest date badges, delivering a **+34% increase in mobile orders** and a **-44% reduction in cart abandonment**.
- **Cook by Ugo (Hospitality Ordering UI):** Designed direct takeout platform with spice toggles and 90-second checkout, **driving a +45% increase in direct orders** and saving 30% in third-party commissions.

UI/UX Designer — **Talstrike** United States (Remote) | Jul 2024 – Dec 2024

- Conducted user research, heuristic evaluations, and journey mapping to uncover critical drop-off points across web and mobile surfaces.
- Delivered production-ready interactive prototypes in bi-weekly Agile sprints, collaborating with distributed engineering teams.
- Translated qualitative user testing insights into iterative wireframes, improving core feature engagement and task completion rates.

User Experience Designer — **Cloudnet IQ Labs** Remote | Nov 2020 – Mar 2022

- Designed wireframes, personas, and interactive prototypes for digital client platforms across fintech, logistics, and web tools.
- Conducted usability audits and user interviews, identifying friction points in navigation to guide iterative product refinements.
- Partnered with front-end developers during staging QA to ensure high-fidelity implementation of spacing, typography, and interactive states.

EDUCATION

MSc Cyber Security — Aston University, Birmingham, UK (Specialism: Security-by-Design, Privacy UX, GDPR) **Sep 2025 – Oct 2026 (Expected)**

BSc Computer Science (Second Class Upper) — Adeleke University **Sep 2019 – Jun 2023**

CERTIFICATIONS

- **Google UX Design:** Conduct UX Research & Test Early Concepts (2024)
- **Google UX Design:** Empathize, Define, and Ideate (2024)
- **Udemy:** Agile & Front-End DevOps Engineering (2026)
- **Google UX Design:** Build Wireframes & Low-Fidelity Prototypes (2024)
- **Google:** Foundations of Cybersecurity (2024)
